

HOW TO PARTICIPATE IN VESTARIN PRE-ICO & ICO with ETHERIUM

Token sale address will be published on the official www.vestarin.io website on the day of Pre-ICO and ICO.

Only Ether (ETH) is accepted.

Use only official Token sale Address. Don't use any address sent to you by e-mail or chats.

Don't send from exchange accounts, only from personal wallets such as Myetherwallet or Ethereum wallet.

Set a Gas limit to 300.000, Gwei 60 before sending ETH.

If you have any questions about transfer ask us in Telegram Channel

<https://t.me/Vestarinru> - rus

<https://t.me/Vestarin> - eng

or by mail to: info@vestarin.io

Presale (Pre-ICO):

January 30th (16:00 (GMT+4)) – February 28th (16:00 (GMT+4))

1ETH = 3000 VST / Discount 56%

Presale event will automatically finish as soon as the limit of 5.000ETH is reached

Minimum transaction = 0.1ETH

ICO:

March 5th (16:00 (GMT+4)) – April 4th (16:00 (GMT+4))

1ETH = ±1500VST (*average rate*)

during ICO campaign, VST per ETH rate will increase gradually depending on total amount of ETH contributed.

Minimum transaction = 0.1ETH

Step 1 - Ether (ETH) purchase

In order to participate in Vestarin Token sale you will need to have Ether (ETH). You can purchase ETH with your Visa or Master card by using such services as:

Changelly: <https://changelly.com/>

Cex.io: <https://cex.io/>

Coinbase <https://www.coinbase.com/>

Some of these service providers are more expensive than others, please conduct your own research regarding where to purchase Ethereum at the best rate.

As soon as you purchased Ether – you will need to create a wallet. We recommend using MyEtherwallet, which is reliable and easy to use. Please find instructions below.

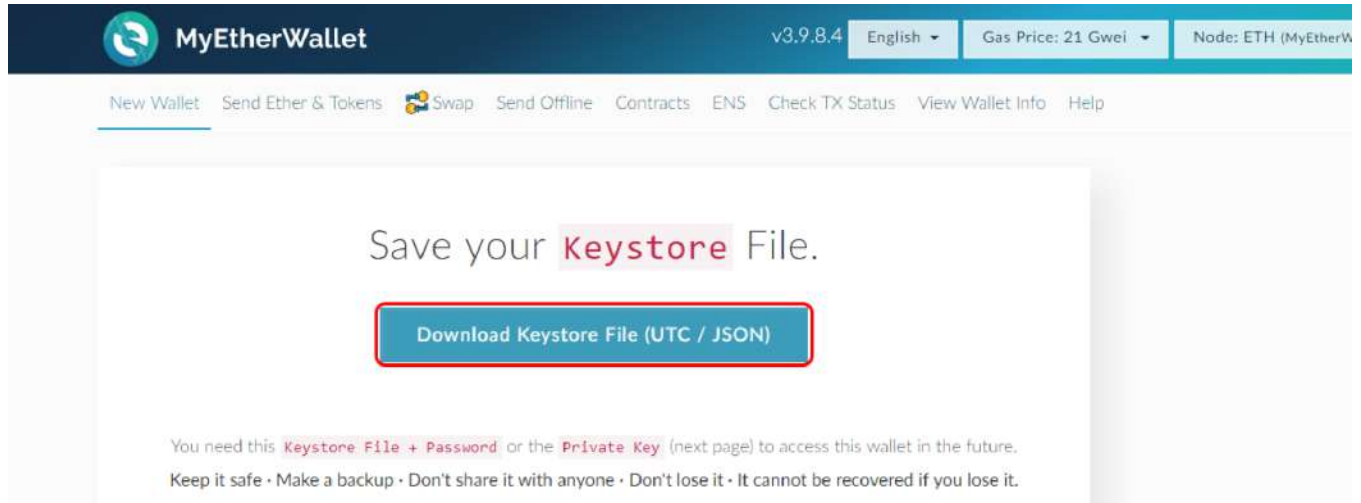

Step 2 – Create Ether Wallet

1. Go to <https://myetherwallet.com/>
2. Enter a strong password and click "Create new wallet"

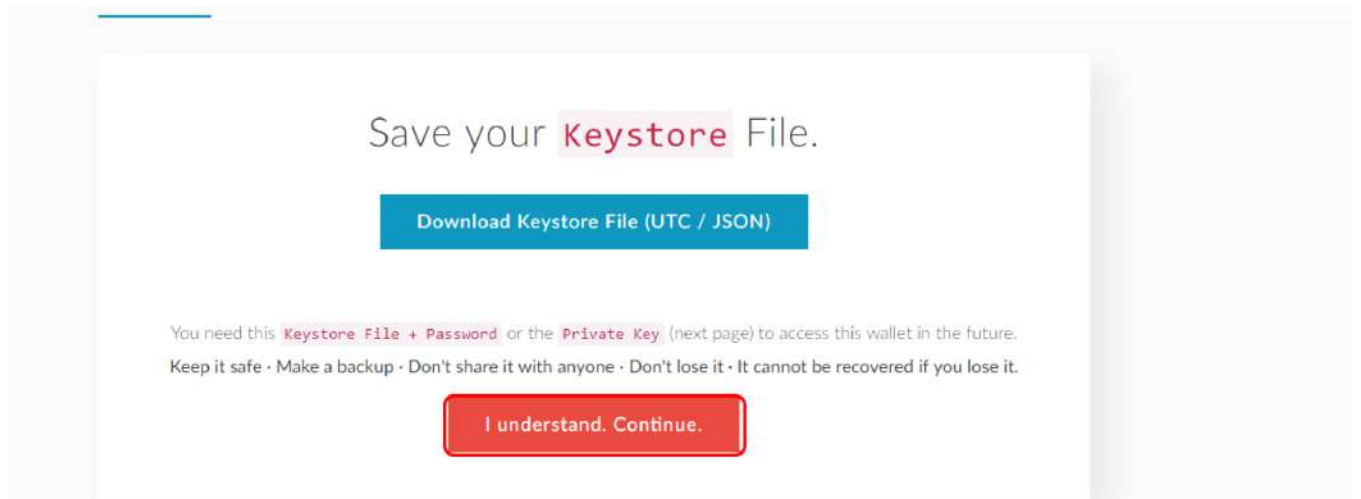

The screenshot shows the MyEtherWallet website interface. At the top, there's a dark teal header with the MyEtherWallet logo on the left, and version "v3.9.8.4", language "English", gas price "21 Gwei", and node "ETH (MyEtherWallet)" on the right. Below the header is a navigation bar with links: "New Wallet", "Send Ether & Tokens", "Swap", "Send Offline", "Contracts", "ENS", "Check TX Status", "View Wallet Info", and "Help". The main content area is titled "Create New Wallet" and features a form with the instruction "Enter a password". The password input field is a light green box with a blue eye icon for visibility and a blue question mark icon. Below the input field is a blue button with a red border labeled "Create New Wallet". On the right side, there's a sidebar with a large question mark icon and three sections: "Ledger / TREZOR:" with a bullet point "Use your Ledger or TREZOR to access your account. Your device is your wallet.", "Jaxx / Metamask:" with a bullet point "Use your Mnemonic Phrase to access your account.", and "Mist / Geth / Parity:" with a bullet point "Use your Keystore File (UTC / JSON) to access your".

3. Store your Private Key. Click "Download Keystore File (UTC/JSON)"

4. Once the Keystore File has been downloaded, click "I understand. Continue."

5. You can also save or write down your private key

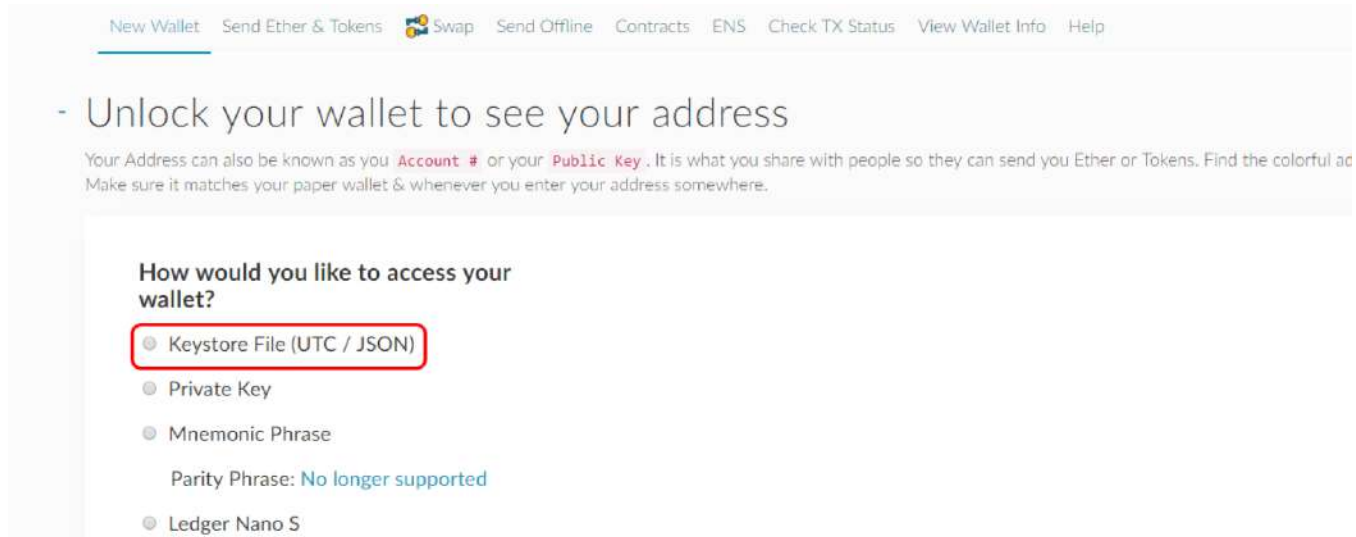

This is a screenshot of the MyEtherWallet website. The top navigation bar is dark blue with the MyEtherWallet logo on the left, the version number 'v3.9.8.4', language 'English', gas price '21 Gwei', and node 'ETH (MyEtherW)'. Below the navigation bar, there are links for 'New Wallet', 'Send Ether & Tokens', 'Swap', 'Send Offline', 'Contracts', 'ENS', 'Check TX Status', 'View Wallet Info', and 'Help'. The main content area is white and features the heading 'Save Your Private Key.' in a large, bold font. Below the heading, a grey box contains the private key: 'f7360b02e375f33926f0723138d5649b6dc7d60d3513cacc58cffaf642df7774'. Underneath the key, there is a section titled 'Print Paper Wallet' with a blue button labeled 'Print Paper Wallet'. At the bottom of this section, there is a grey button labeled 'Save Your Address. →'. On the right side of the page, there is a sidebar with a 'Guides & FAQ' section containing several links: 'How do I save/backup wallet?', 'Preventing loss & theft your funds.', and 'What are these Differ Formats?'. Below this is a 'Why Should I?' section with links: 'To have a secondary ba', 'In case you ever forget password.', and 'Cold Storage'. At the bottom of the sidebar, there is a 'ProTip: Click print and save this as a PDF, ev if you do not own a printer!'.

6. Click "Save your address"

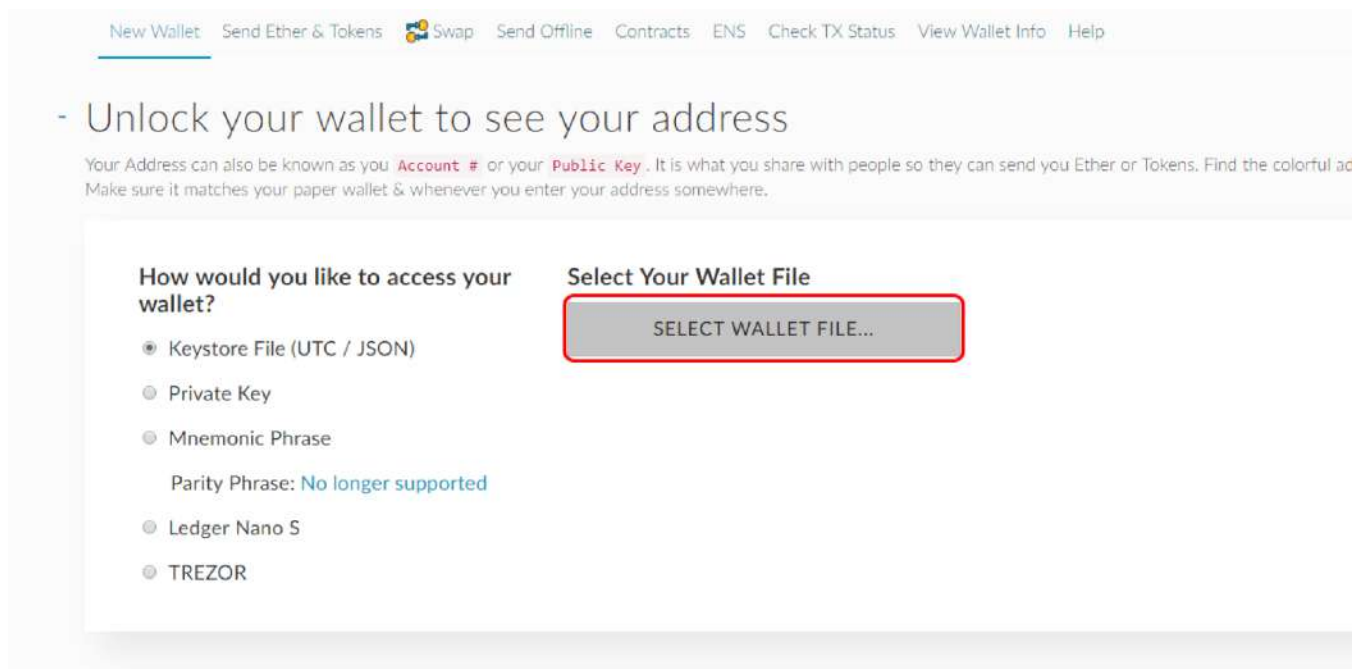

This is a second screenshot of the MyEtherWallet website, identical to the first one. The layout and content are the same, but the 'Save Your Address. →' button at the bottom of the main content area is highlighted with a red rectangular border. This highlights the step mentioned in the text above.

- Now, to see your address, upload your private key.
To do so, click "[Keystore File \(UTC / JSON\)](#)"

- Upload your [Keystore file](#).

9. Enter your password and click "Unlock"

New Wallet Send Ether & Tokens Swap Send Offline Contracts ENS Check TX Status View Wallet Info Help

Unlock your wallet to see your address

Your Address can also be known as your **Account #** or your **Public Key**. It is what you share with people so they can send you Ether or Tokens. Find the colorful address icon, make sure it matches your paper wallet & whenever you enter your address somewhere.

How would you like to access your wallet?

- Keystore File (UTC / JSON)
- Private Key
- Mnemonic Phrase
- Parity Phrase: **No longer supported**
- Ledger Nano S
- TREZOR

Select Your Wallet File

SELECT WALLET FILE...

Your wallet is encrypted. Please enter the password.

Unlock your Wallet

Unlock

10. Once your wallet is unlocked, you can scroll down to see all details. Including the wallet address which you'll need in order to send ETH from the exchange.

Your Address

0xF86A68e1f1935f4D5824AAe9f1856687387F708d

Private Key (unencrypted)

Step 3 – Send Ethereum from exchange to your wallet

Once you established wallet – send Ether from Exchange created in [Step 1](#) or any other existing exchange to your wallet created in [Step 2](#).

Step 4 – Send Ethereum to Vestarin Token sale address

Having received ETH on your wallet <https://myetherwallet.com> , you can participate in Vestarin Token sale.

Choose “[Send Ether & Tokens](#)” in the menu. Unlock your wallet with the JSON file and your password or with Private key.

[Generate Wallet](#) [View Wallet Info](#) [Send Transaction](#) [Offline Transaction](#) [The DAO](#) [DAO Proposals](#) [Digix](#) [Help](#)

Send Transaction

If you want to send Tokens, please use The DAO or Digix pages instead.

Select the format of your private key:

- JSON or Keystore File
- Plain Text Private Key

Select your wallet file:

SELECT WALLET FILE...

Enter the Token sale address seen on VESTARIN.IO website and amount of the transfer. Set Gas Limit to 300 000, Gwei to 60, click generate the transaction.

Address for sending ETH is published on the website <https://vestarin.io>

Step 5 – Adding VST Token to your Wallet

Enter your wallet from where ETH was sent.

In case of MyEtherWallet – click [ADD CUSTOM TOKEN](#)

Address: 0x552Ed8253f341fb770E8BAdff5A0E0Ee2fd57B43

Token Symbol: VST

Decimals: 18

Token Contract Address

18

Save

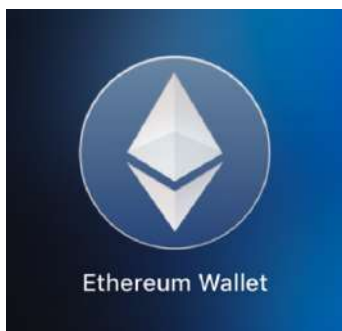

And click «**SAVE**» button

Once you will get your tokens you can transfer them the same way as ETH to anyone from your wallet, just choose it from the currency options

A screenshot of a transaction form. The form has several fields: "To Address" with a red border containing the address "0x7cB57B5A97eAbe94205C07890BE4c1aD31E486A8"; "Amount to Send" with a red border containing the word "Amount" and a dropdown menu currently set to "VST"; "Gas Limit" with a green border containing the value "200000". A blue arrow points from the "To Address" field down to the "VST" option in the dropdown menu. Below the "Amount to Send" field, there is a link "Send Entire Balance". At the bottom of the form, there is a dark blue button labeled "Generate Transaction".

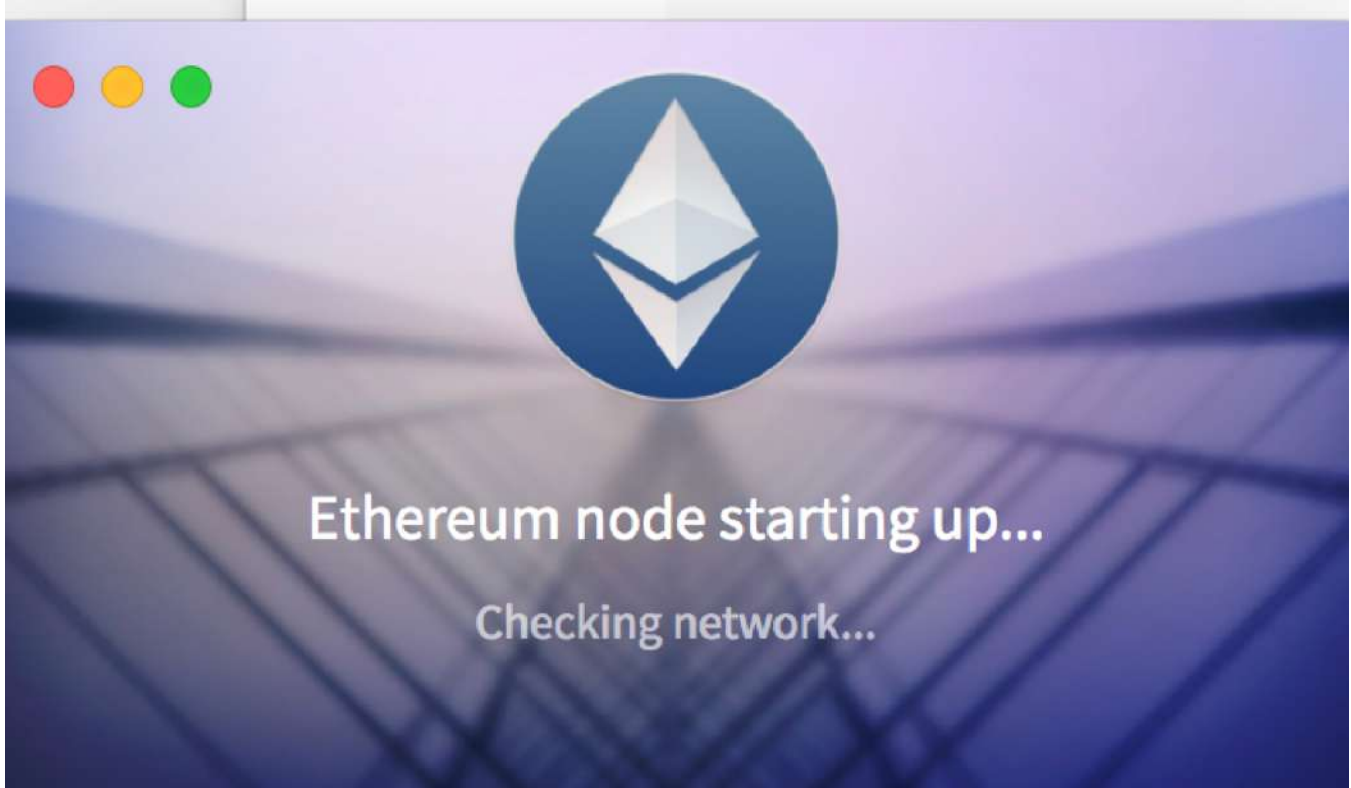

OPTION 2: ETHEREUM WALLET

- 1) Download Ethereum wallet for your computer here: <https://github.com/ethereum/mist/releases>
- 2) Launch Ethereum Wallet

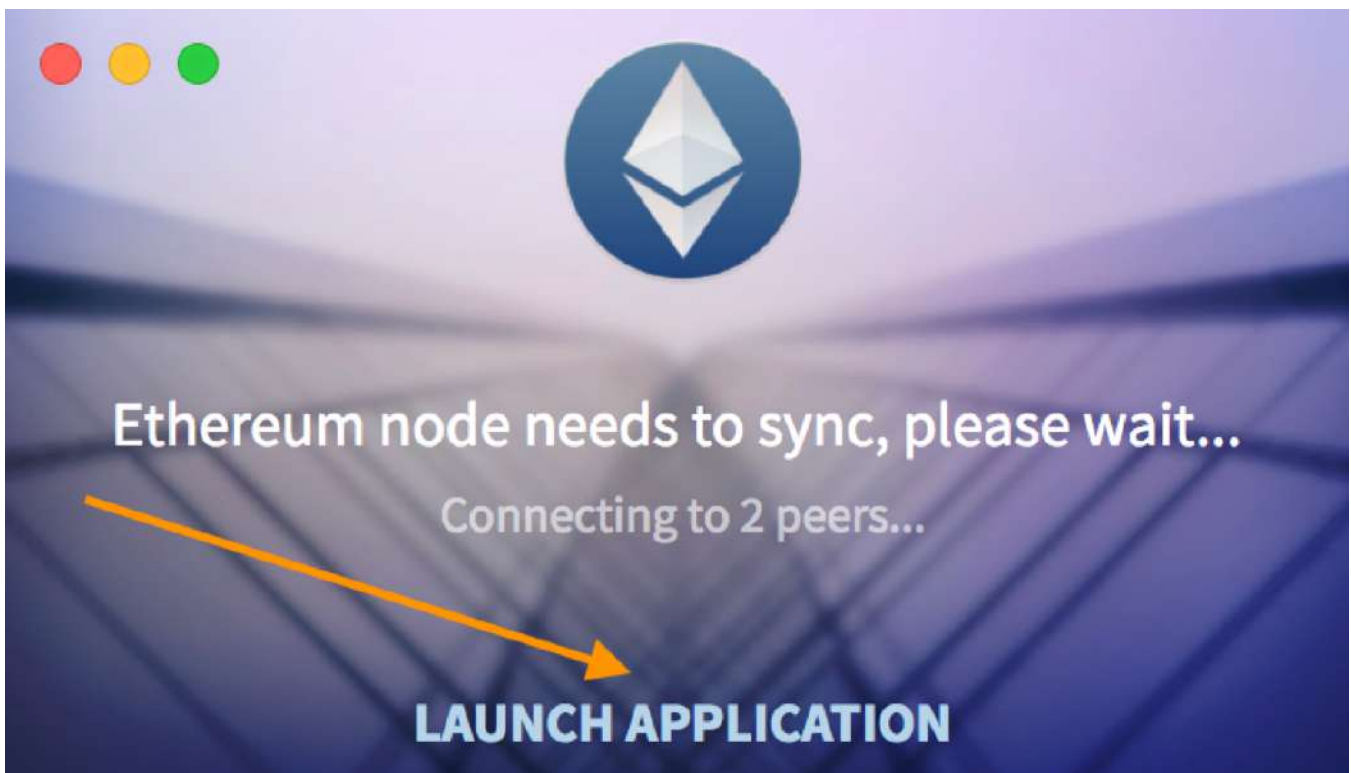

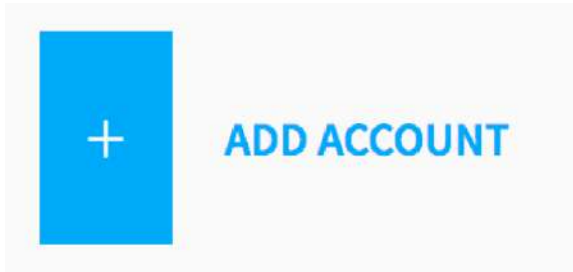

3) Wait until Ethereum node will start

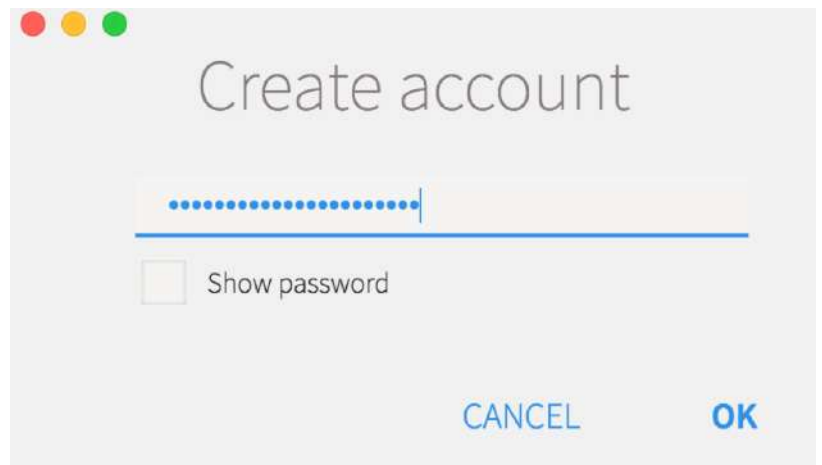

4) Click on «Launch Application»

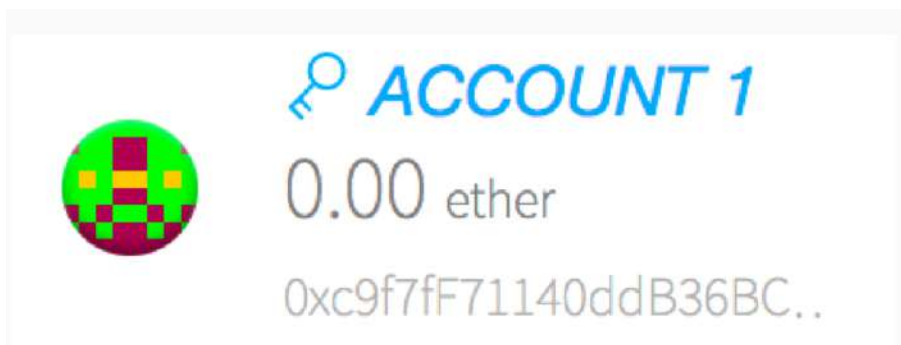

5) Click to [ADD ACCOUNT](#)

6) Create password of your account, click [OK](#), than repeat password and click [OK](#)

7) Your Account is Generated, click on it

8) Here will be the address of your personal wallet.

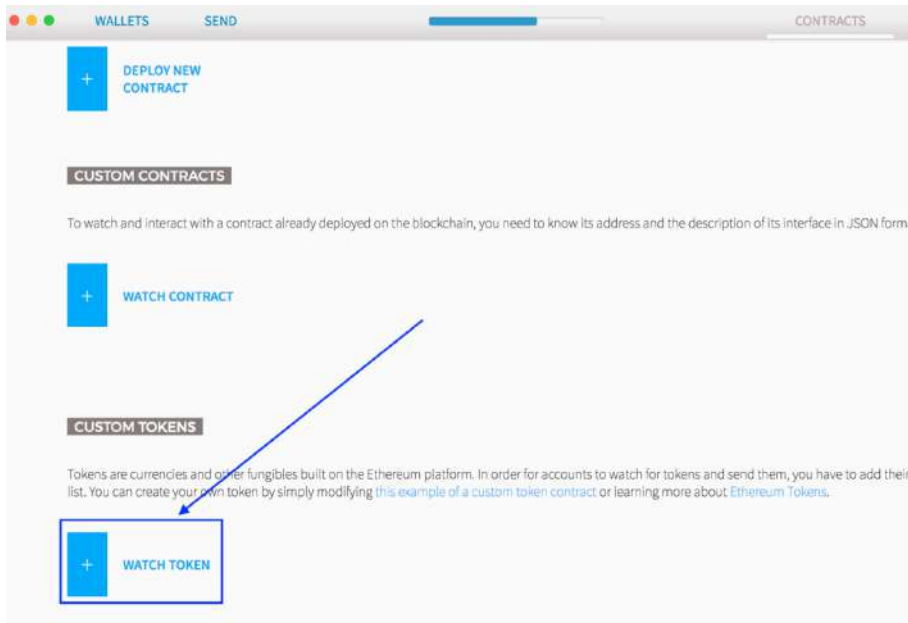

Next is ADDing of VST Tokens to your wallet.

9) Click on «CONTRACTS»

10) Scroll down to «Custom Tokens» and click on «Watch Token»

11) Fill all the fields exactly like here:

-Token Contract address:

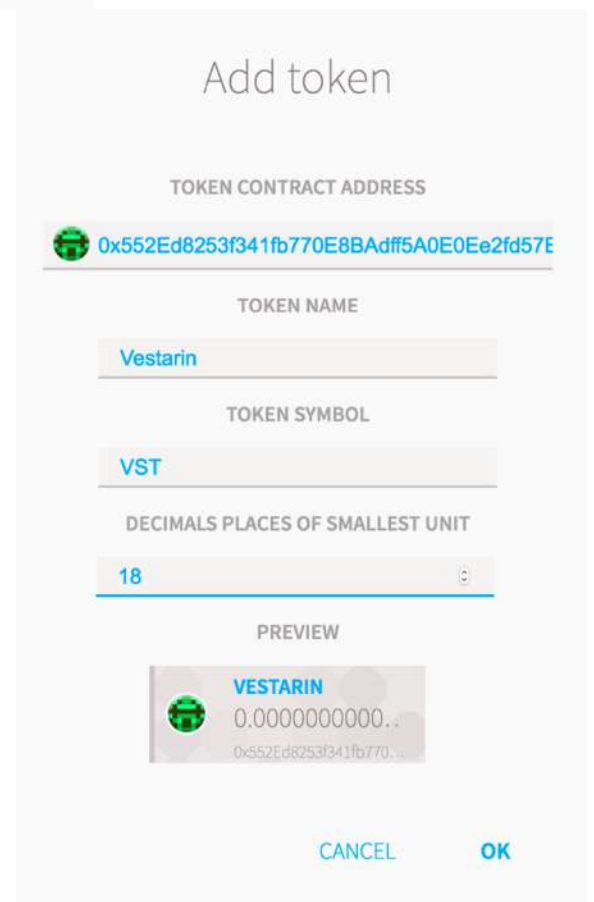

[0x552Ed8253f341fb770E8BAdff5A0E0Ee2fd57B43](#)

-Token Name: [Vestarin](#)

-Token Symbol: [VST](#)

-Decimal Places of smallest unit: [18](#)

and click to «OK»

Now you need to purchase your Ethereum coins (ETH) to have an opportunity to invest in Vestarin. You can purchase ETH with your Visa or Master card by using such services as:

Changelly: <https://changelly.com/>

Cex.io: <https://cex.io/>

Coinbase <https://www.coinbase.com/>

Some of these service providers are more expensive than others, please conduct your own research regarding where to purchase Ethereum at the best rate.

After you receive your ETH you can invest in Vestarin Pre-ICO and ICO. Address for sending ETH will be published on the website <https://www.vestarin.io> on the day of Token sale.

Once you will get your tokens you can transfer them the same way as ETH to anyone from your wallet.

Please NOTE:

In Total you need 3 addresses:

- 1) The address of YOUR created or existing Ethereum wallet.
- 2) The Address for crowdsale listed on the website <https://www.vestarin.io>
- 3) The Address of the VST token: [0x552Ed8253f341fb770E8BAddf5A0E0Ee2fd57B43](https://www.vestarin.io)
